

Alt_(e)hereum

Alternative Ethereum,
Developer Friendly

Ethereum

- Relatively large block time
- Expensive GAS costs for storage
- Volatile

EOS

- Centralized
- Bad technology

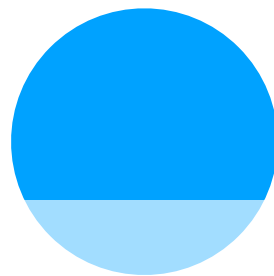

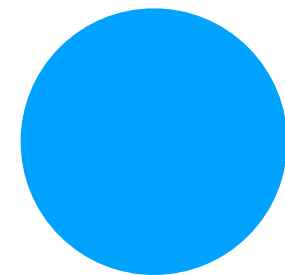

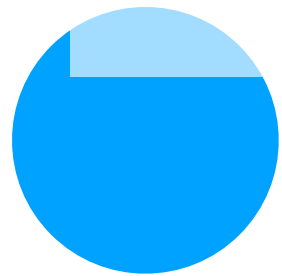

12484

anonymous nodes

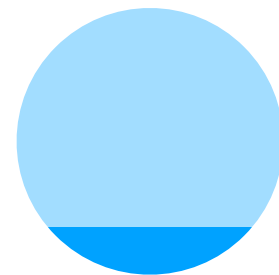

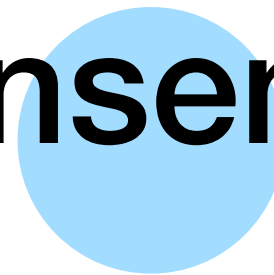

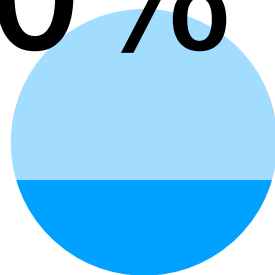

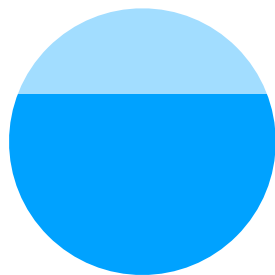

Ethereum + EOS

Make developers happy again ❤️

Alt_(e)hereum

- CPU (Computation Processing Unit) native coin and GAS instead of ETH
- Stable CPU = 1\$
- Use same SDK and tools as Ethereum's
-

D-E-M-O

Publicly live after the hackathon
